

Childhood Leukemia to Gallbladder Cancer

CHILDHOOD LEUKEMIA

The American Cancer Society - Childhood Leukemia

The American Cancer Society is a nationwide network of community based, voluntary health organizations committed to the research and defeat of cancer. The childhood leukemia site includes statistics, signs and symptoms, diagnosing, staging, survival rates, risk factors, causes, treating, coping, insurance issues, research, clinical trials, and support programs. <http://www.cancer.org/cancer/leukemiainchildren/index>

Childhood Leukemia Foundation

The Childhood Leukemia Foundation is a national non-profit organization that provides a myriad of services – totally free of charge - to children battling cancer and their families. This website has sections on family resources, support networks and chat rooms and message boards, wellness and health, fun and lifestyle, wish organizations, reading resources, and Hugs-U-Wear providing human hair wigs to children with cancer. <https://www.clf4kids.org/>

Leukemia & Lymphoma Society

The mission of The Leukemia & Lymphoma Society (LLS) is: Cure leukemia, lymphoma, Hodgkin's disease and myeloma, and improve the quality of life of patients and their families. LLS funds lifesaving blood cancer research around the world and provides free information and support services. This childhood leukemia site includes information on incidence, signs and symptoms, diagnosis, sub-types, before treatment, treatment, clinical trials, follow-up care, childhood Non-Hodgkin lymphoma, and resources.

1UpOnCancer This site states that it was started for a place to get good news. You can visit to learn about survivors and organizations doing incredible things, and to learn about promising research. It also has information about lifestyle choices to cut your chance for recurrence or to live well if you have metastasized. Visit for “Freebies for Cancer Patients” and other resources. And if you want a good laugh, click on the “Humor” link. It has information on cancer in general and specific information on cancers of the Blood, Breast, Cervical, Childhood, Colorectal, Lung, Melanoma, Ovarian, Prostate, and Uterine. <http://www.1uponcancer.com/>

CHOLANGIOCARCINOMA (See BILE DUCT CANCER)

CHRONIC LYMPHATIC LEUKEMIA (Same as Chronic Lymphocytic Leukemia)

The American Cancer Society - Chronic Lymphatic Leukemia

The American Cancer Society is a nationwide network of community based, voluntary health organizations committed to the research and defeat of cancer. The childhood leukemia site includes general information on chronic lymphatic leukemia, statistics, signs and symptoms, diagnosing, staging, survival rates, risk factors, causes, treating, coping, insurance issues, research, clinical trials, and support programs. <http://www.cancer.org/cancer/leukemia-chroniclymphocyticcll/index>

CancerNet.com – Chronic Lymphocytic Leukemia

Cancer.Net provides timely, comprehensive, oncologist-approved information from the American Society of Clinical Oncology (ASCO), with support from the Conquer Cancer Foundation. This is CancerNet's Guide on Chronic Lymphocytic Leukemia. It includes sections such as an Overview, Statistics, Medical Illustrations, Risk Factors, Symptoms and Signs, Diagnosis, Sub-types, Treatment Options, About Clinical Trials, Latest Research, Coping with Side Effects, After Treatment, Questions to Ask the Doctor, and Additional Resources – Advocacy organizations. <http://www.cancer.net/cancer-types/leukemia-chronic-lymphocytic-cll>

Leukemia & Lymphoma Society – Chronic Lymphocytic Leukemia

The mission of The Leukemia & Lymphoma Society (LLS) is: Cure leukemia, lymphoma, Hodgkin's disease and myeloma, and improve the quality of life of patients and their families. LLS funds lifesaving blood cancer research around the world and provides free information and support services. This chronic lymphocytic leukemia site includes information on statistics, signs and symptoms, diagnosis and different forms, staging, risk factors, treatment and supportive care, clinical trials, and follow-up care and resources. <http://www.lls.org/leukemia/chronic-lymphocytic-leukemia>

National Cancer Institute – Chronic Lymphocytic Leukemia

The National Cancer Institute is part of the National Institute of Health, one of 11 agencies currently operating under the umbrella of the Department of Health and Human Services. In addition to research conducted in its own clinics and laboratories, the NCI supports and coordinates research projects through cancer centers, hospitals, and universities, while also being the primary federal entity responsible for disseminating information about cancer. This site includes general information on chronic lymphocytic leukemia, risk factors, signs and symptoms, tests, stages, treatment, and more about chronic lymphocytic leukemia which includes information on coping and support. <http://www.cancer.gov/cancertopics/pdq/treatment/CLL/Patient>

1UpOnCancer This site states that it was started for a place to get good news. You can visit to learn about survivors and organizations doing incredible things, and to learn about promising research. It also has information about lifestyle choices to cut your chance for recurrence or to live well if you have metastasized. Visit for “Freebies for Cancer Patients” and other resources. And if you want a good laugh, click on the “Humor” link. It has information on cancer in general and specific information on cancers

of the Blood, Breast, Cervical, Childhood, Colorectal, Lung, Melanoma, Ovarian, Prostate, and Uterine. <http://www.1uponcancer.com/>

COLON CANCER (See COLORECTAL CANCER)

COLORECTAL CANCER

Chris4Life Colon Cancer Foundation

This foundation funds and facilitates cutting edge research programs, and also funds and develops programs to support patients and their caregivers. In addition it works to increase awareness of the life-saving importance of early screening for colon cancer. It provides assistance through COLONTOWN where patients and survivors can interact with each other, The Chris4Life Resource DVD, Wellness Guide, and the Patient Support Program. <http://www.chris4life.org/>

Colon Cancer Alliance

The Colon Cancer Alliance, Inc. is a not-for-profit 501(c)3 corporation (EIN 86-0947831). The organization addresses prevention of colorectal cancer, relevant research and patient support. The website includes sections on general information, statistics, risk factors, prevention and screening, staging, treatment, clinical trials, and resources such as helpful organization which provide patient support, transportation assistance, insurance and financial and legal assistance, prescription drug assistance, and end of life assistance. This site also has a Spanish translation option. www.ccalliance.org

Fight Colorectal Cancer

Fight Colorectal Cancer offers resources, support and activities for those touched by colon cancer and rectal cancer. The website provides general information and discussions of signs and symptoms, risk factors, screening options, statistics, understanding diagnosis and treatment options, managing side effects, asking for help, health and intimacy, post-treatment follow-up, end of life issues, and survivorship, and also message boards and a Facebook group. www.fightcolorectalcancer.org

Susan Cohan Colon Cancer Foundation

This foundation works internationally on colon cancer prevention, patient support and treatment. The website includes sections on general information, symptoms, stages, myths and misinformation, men and women, at any age, health and prevention, screening, treatment, resources, and programs which fund research, launch the global Interactive Resource Center, and provide educational and community programs. www.coloncancerfoundation.org

1UpOnCancer This site states that it was started for a place to get good news. You can visit to learn about survivors and organizations doing incredible things, and to learn

about promising research. It also has information about lifestyle choices to cut your chance for recurrence or to live well if you have metastasized. It has information on cancer in general and specific information on cancers of the Blood, Breast, Cervical, Childhood, Colorectal, Lung, Melanoma, Ovarian, Prostate, and Uterine. <http://www.1uponcancer.com/>

CONJUNCTIVA CANCER

Eye Cancer Foundation

The Foundation’s work focuses on multi-centered research of new diagnostic treatments for eye cancer, providing an infrastructure for sharing data, results and research, and providing much needed patient support services. The website includes eye cancer links and resources, an online support community, patient forum on Facebook, and a patient support newsletter. <http://www.eyecancer.com/foundation>

The Eye Cancer Network – Conjunctival tumors

The Network which is part of the Eye Cancer Foundation provides comprehensive eye cancer information, covering several different eye cancers and related eye diseases, including symptoms, diagnosis, treatment options, and much more. Eye Cancer Network is doctors with an Ophthalmic Oncologist specialty in choroidal melanoma, choroidal nevus, retinoblastoma, enucleation, and eye cancers. <http://www.eyecancer.com/conditions-and-treatments/conditions/browse/2/conjunctival-tumors>

MD Anderson Cancer Center - Eye Cancer: Cancers of Conjunctiva

The website provides information on cancers of the conjunctiva & eye including the symptoms, diagnosis & treatment options. www.mdanderson.org

DIGESTIVE TRACT CANCERS (See Gastrointestinal Cancers for specific types)

ENDOMETRIUM (Uterine) CANCER

American Cancer Society - Endometrial (Uterine) Cancer Overview

The American Cancer Society is a nationwide network of community based, voluntary health organizations committed to the research and defeat of cancer. The American Cancer Society provides a discussion of endometrial cancer risk factors, prevention and early detection, key statistics, signs, and symptoms, diagnosis, treatment, and research. <http://www.cancer.org/cancer/endometrialcancer/index>

Cancer Support Community - Endometrial Cancer

This organization is a global network of education and hope. Its mission is to ensure that all people impacted by cancer are empowered by knowledge, strengthened by action, and sustained by community. The endometrial cancer site includes sections and services such as diagnosis, treatment, side effect management, risk factors/signs and symptoms, stages, emotional wellbeing, a cancer support hotline, and a kids and teens support program. <http://www.cancersupportcommunity.org/MainMenu/About-Cancer/Types-of-Cancer/Endometrial>

Foundation for Women's Cancer -

The Foundation for Women's Cancer is a 501 (c) (3) not for profit organization dedicated to funding research and training, and ensuring education and public awareness of gynecologic cancer prevention, early detection and optimal treatment. www.foundationforwomenscancer.org

National Cancer Institute - Endometrial Cancer

The National Cancer Institute is part of the National Institute of Health, one of 11 agencies currently operating under the umbrella of the Department of Health and Human Services. In addition to research conducted in its own clinics and laboratories, the NCI supports and coordinates research projects through cancer centers, hospitals, and universities, while also being the primary federal entity responsible for disseminating information about cancer. This site contains information about endometrial/uterine cancer treatment, prevention, causes, screening, clinical trials, research, statistics, and general resources on coping. <http://www.cancer.gov/cancertopics/types/endometrial>

National Library of Medicine - PubMed Health - Endometrial cancer -

National Library of Medicine site includes information on endometrial cancer including, symptoms, causes, exams and tests, treatment, and prevention. <http://www.ncbi.nlm.nih.gov/pubmedhealth/PMHT0023690/>

1UpOnCancer This site states that it was started for a place to get good news. You can visit to learn about survivors and organizations doing incredible things, and to learn about promising research. It also has information about lifestyle choices to cut your chance for recurrence or to live well if you have metastasized. Visit for "Freebies for Cancer Patients" and other resources. And if you want a good laugh, click on the "Humor" link. It has information on cancer in general and specific information on cancers of the Blood, Breast, Cervical, Childhood, Colorectal, Lung, Melanoma, Ovarian, Prostate, and Uterine. <http://www.1uponcancer.com/>

ESOPHAGUS

Esophageal Cancer Awareness Association

This site offers easy-to-read information on Esophageal Cancer (EC) – descriptions of the disease, its diagnosis, staging, treatments, and other factors. Their goal is to create a community of survivors, patients and caregivers that together can provide support and information while also increasing awareness of the disease. www.ecaware.org

Esophageal Cancer Education Foundation – ECEF

This organization’s mission is to bring awareness and educate the public and medical community about this dreaded disease, to walk the journey with patients who have this disease, and to financially support research projects that focus on the development of an early warning test for this disease. www.fightec.org

National Cancer Institute - Esophageal Cancer

The National Cancer Institute is part of the National Institute of Health, one of 11 agencies currently operating under the umbrella of the Department of Health and Human Services. In addition to research conducted in its own clinics and laboratories, the NCI supports and coordinates research projects through cancer centers, hospitals, and universities, while also being the primary federal entity responsible for disseminating information about cancer. This site provides information about esophageal cancer treatment, prevention, screening, clinical trials, research, statistics and other topics. <http://www.cancer.gov/types/esophageal>

National Foundation for Esophageal Cancer Research | NFCR

National Foundation for Esophageal Cancer Research supports genetic level research and public education relating to prevention, early diagnosis, and current treatments. www.nfcr.org/esophageal-cancer-research

National Library of Medicine - PubMed Health - Esophageal cancer

National Library of Medicine site discusses esophageal cancer and its symptoms, tests, treatment, and prevention. <http://www.ncbi.nlm.nih.gov/pubmedhealth/PMHT0015647/>

The Salgi Esophageal Cancer Research Foundation

The Salgi Esophageal Cancer Research Foundation is a non-profit organization established to raise funds for awareness, early detection and research of esophageal cancer in hopes of a cure. www.salqi.org

EXTRAHEPTIC BILE DUCTS

Cancer.Net – Bile Duct Cancer

Cancer.Net provides timely, comprehensive, oncologist-approved information from the American Society of Clinical Oncology (ASCO), with support from the Conquer Cancer

Foundation. This is Cancer.Net's Guide to Bile Duct Cancer. It includes sections such as Overview, Statistics, Medical Illustrations, Risk Factors, Symptoms and Signs, Diagnosis, Stages, Treatment Options, About Clinical Trials, Latest Research, Coping with Side Effects, After Treatment, Questions to Ask the Doctor, and Additional Resources. <http://www.cancer.net/cancer-types/bile-duct-cancer>

Cancer Support Community

The organization's mission is to ensure that all people impacted by cancer are empowered by knowledge, strengthened by action, and sustained by community. The endometrial cancer site includes sections and services such as diagnosis, treatment, side effect management, risk factors/signs and symptoms, stages, emotional wellbeing, a cancer support hotline, and a kids and teens support program. www.cancersupportcommunity.org/.../Types-of-Cancer/Bile-Duct

The Cholangiocarcinoma Foundation

The mission of the Foundation is to find a cure and improve the quality of life for those affected by cholangiocarcinoma. The Foundation provides information regarding cholangiocarcinoma, symptoms, staging, treatment options, a list of cancer centers for second opinions, molecular testing information, clinical trials, e-book on biliary cancer, free biliary emergency information card, discussion board, and newsletter. <http://cholangiocarcinoma.org/>

National Cancer Institute - Extrahepatic Bile Duct Cancer

The National Cancer Institute is part of the National Institute of Health, one of 11 agencies currently operating under the umbrella of the Department of Health and Human Services. In addition to research conducted in its own clinics and laboratories, the NCI supports and coordinates research projects through cancer centers, hospitals, and universities, while also being the primary federal entity responsible for disseminating information about cancer. This site provides information about extrahepatic bile duct cancer treatment, prevention, screening, clinical trials, research, statistics and other topics from the National Cancer Institute. <http://www.cancer.gov/cancertopics/types/bileduct>

National Library of Medicine - MedlinePlus : Bile Duct Cancer

This site covers diagnosis, symptoms, treatment, statistics and research, clinical trials, patient handouts (available in Spanish), and more. <https://www.nlm.nih.gov/medlineplus/bileductcancer.html>

EXTRANODAL NK/T-CELL LYMPHOMA (NASAL TYPE)

The Lymphoma Research Foundation

The Lymphoma Research Foundation (LRF) is the nation's largest non-profit organization devoted exclusively to funding innovative lymphoma research and providing people with lymphoma and healthcare professionals with up-to-date information about this type of cancer. The site includes sections on an overview, subtypes, treatment options, treatments under investigation, clinical trials, follow up, support, transportation assistance fund, and resources. <http://www.lymphoma.org/site/pp.asp?c=bkLTKaOQLmK8E&b=6300141>

T-Cell Leukemia Lymphoma Foundation

The T-Cell Leukemia Lymphoma Foundation is a non-profit organization that was formed in an effort to fulfill several purposes. The first is to provide education about these rare cancers to patients and family members by means of hosting educational forums and dispensing literature. When diagnosed, cancer isn't the only thing these patients have to battle; simple issues such as travel to and from appointments can be costly, so second goal is to dispense charitable funds to assist with treatment-related expenses. Extensive research is still needed to learn and understand more about TCLL, therefore, allocating charitable funds to support such scientific research is also imperative in their mission. <http://tcllfoundation.org/about-the-foundation/>

EYE

Ocular Melanoma Foundation

The Ocular Melanoma Foundation is a resource for OM patient support, education and advocacy. They strive to provide patients and their caregivers - both the newly diagnosed as well as those looking to gain a greater understanding of their disease - with both cutting edge research and a full suite of tools to guide them along their treatment journey. www.ocularmelanoma.org/types-of-eye-cancer.htm

Wills Eye - Conjunctival Melanoma

Wills Eye serves as a comprehensive ophthalmology center and includes diagnosis, treatment and research related to disorders of the eye. www.willseye.org/health-library/conjunctival-melanoma

EYE MELANOMA

Eye Melanoma.org

Eye Melanoma .org highlights educational and support resources for melanoma of the eye. The site gives list of resources such as eye melanoma organizations, testing, diagnosis, and treatment, journal articles, doctors, clinical trials, support, and financial assistance. www.eyemelanoa.org

Melanoma Research Foundation

The mission of Melanoma Foundation is to educate patients and physicians about the prevention, diagnosis and treatment of melanoma, support research for effective treatments and eventually a cure for melanoma, and advocate for the melanoma community, and raise awareness about melanoma. www.melanoma.org/

Ocular Melanoma Foundation

OMF's mission is to accelerate and enhance scientific research, advocacy, and awareness of ocular melanoma and to provide education and support to patients, their families, and healthcare professionals. For patients and their loved ones, OMF aspires to be the top destination for up-to-date OM-related educational information, a meeting place, and advocacy resource. For doctors and researchers, OMF strives to be the connective tissue, facilitating interdisciplinary cancer research. The goal of OMF is to have there exist accessible and effective treatments for ocular melanoma and, one day, a cure. www.ocularmelanoma.org

GASTRIC CARCINOMA

American Cancer Society – Gastric/stomach cancer

The American Cancer Society is a nationwide network of community based, voluntary health organizations committed to the research and defeat of cancer. This site presents information on stomach cancer including statistics, signs and symptoms, diagnosing, staging, risk factors, treating, support and research. <http://www.cancer.org/cancer/stomachcancer/index>

Gastric Cancer Foundation

Through education, research and advocacy, the Gastric Cancer Foundation (GCF) is dedicated to improving the lives of people affected by stomach cancer and to working with leading researchers to find a cure. In 2011, GCF started the Gastric Cancer Registry to collect important data about stomach cancer. www.gastriccancer.org

National Cancer Institute – Stomach (Gastric) Cancer

The National Cancer Institute's webpage includes an online booklet What You Need To Know About™ Stomach Cancer to learn about stomach cancer symptoms, diagnosis, treatment, and questions to ask the doctor. The site also includes sections on screening, coping, clinical trials, research and statistics. <http://www.cancer.gov/cancertopics/types/stomach>

GASTROINTESTINAL CANCERS (See specific types of gastrointestinal cancer which include: ESOPHAGEAL CANCER, GASTRIC OR STOMACH CANCER, GALLBLADDER CANCER, LIVER CANCER, PANCREATIC CANCER, COLON CANCER, AND ANAL CANCER)

GALLBLADDER CANCER

American Cancer Society - Gallbladder Cancer

The American Cancer Society is a nationwide network of community based, voluntary health organizations committed to the research and defeat of cancer. This site includes information on gallbladder cancer including statistics, signs and symptoms, diagnosing, staging, risk factors, coping, treating, support groups, and research. <http://www.cancer.org/cancer/gallbladdercancer/index>

Gallbladder Cancer: MedlinePlus - National Library of Medicine

This website presents sections on diagnosis, symptoms, treatment, prevention/screening, clinical trials, research, statistics, and patient handouts. <http://www.nlm.nih.gov/medlineplus/gallbladdercancer.html>

MedicineNet.com - Gallbladder Cancer

MedicineNet, Inc. is owned and operated by WebMD and part of the WebMD Network. It is a online, healthcare media publishing company. It provides easy-to-read, in-depth, authoritative medical information for consumers via its robust, user-friendly, interactive website. The site includes gallbladder cancer facts, risk factors, symptoms and signs, exams and tests, staging, treatment, and an information source. http://www.medicinenet.com/gallbladder_cancer/article.htm

National Cancer Institute - Gallbladder Cancer

The National Cancer Institute is part of the National Institute of Health, one of 11 agencies currently operating under the umbrella of the Department of Health and Human Services. In addition to research conducted in its own clinics and laboratories, the NCI supports and coordinates research projects through cancer centers, hospitals, and universities, while also being the primary federal entity responsible for disseminating information about cancer. This site presents information regarding gallbladder cancer including treatment, prevention, screening, coping, clinical trials, research, and statistics from the National Cancer Institute. <http://www.cancer.gov/cancertopics/types/gallbladder>
