

Ovarian Cancer to Soft Tissue Sarcoma

OVARIAN CANCER

FORCE (Facing our Risk of Cancer Empowered)

The mission of FORCE is to improve the lives of individuals and families affected by hereditary breast and ovarian cancer. Its programs include local support groups, toll-free Helpline, webinars, research registry and clinical trial matching, free brochure distribution, post mastectomy photo gallery, newsletter, information on treatment, and resources. <http://www.facingourrisk.org/our-role-and-impact/index.php>

Foundation for Women's Cancer - Ovarian Cancer

The Foundation provides information on risk factors, symptoms, medical evaluation, working with your treatment team, treatment, surgical staging, pathology of ovarian cancer, chemotherapy, radiation therapy, hormone therapy, targeted therapies, once you have been treated, then what, recurrent disease, cancer and stress, importance of participation in clinical trials, living with cancer, and resources. It also provides a Hotline. www.foundationforwomenscancer.org

HERA Women's Cancer Foundation

The mission of the HERA Women's Cancer Foundation is to eliminate ovarian cancer by promoting health, empowerment, research, and awareness. Through its strong network of volunteers, donors and partners, this organization funds and inspires scientific researchers who focus on solving the ovarian cancer problem. HERA accomplishes all of the above by offering community events that center on increasing self-esteem and confidence for all participants while raising funds for critical research grants. www.herafoundation.org

National Ovarian Cancer Coalition (NOCC)

Through national programs and local Chapter initiatives, the NOCC's goal is to make more people aware of the early symptoms of ovarian cancer. In addition, the NOCC provides information to assist the newly diagnosed patient, to provide hope to survivors, and to support caregivers. The site gives information on symptoms, diagnosis, treatment, support, and clinical trials. www.ovarian.org

Ovarian Cancer National Alliance

This organization provides assistance to newly diagnosed, and information including, statistics, risk factors, treatment, symptoms and detection, fact sheets and brochures, and has a clinical trials matching service. www.ovariancancer.org

Ovarian Cancer Research Fund (OCRF)

OCRF states that it is the oldest and largest charity in the U.S. funding ovarian cancer research to better diagnose, treat, and ultimately cure ovarian cancer. The organization launched a national support program, Woman to Woman, for women undergoing treatment for gynecologic cancer. This unique program pairs women who have undergone treatment with women who are currently going through it. www.ocrf.org

Ovations for the Cure of Ovarian Cancer

Ovations for the Cure, Inc. provides education programs focused on increasing public awareness of the symptoms of ovarian cancer to improve earlier detection and thus better outcomes for women who have ovarian cancer. Secondly, patient programs are created to give knowledge, hope and comfort to those women currently diagnosed and living with ovarian cancer, which includes a meals program. Ovations for the Cure, Inc. also provides critical funding for new and ongoing ovarian cancer research initiatives that focus on early detection, prevention, developing more effective treatments for ovarian cancer, and to cure ovarian cancer in our lifetime. <http://www.ovationsforthecure.org/about/about.php>

SHARE (Self-Help for Women with Breast or Ovarian Cancer)

SHARE's mission is to create and sustain a supportive network and community of women affected by breast and ovarian cancers. SHARE brings these women and their families and friends together with others who have experienced breast or ovarian cancer, and provides participants with the opportunity to receive and exchange information, support, strength and hope. SHARE's work focuses on empowerment, education and advocacy to bring about better health care, an improved quality of life, and a cure for these diseases. They provide telephone support, support groups, educational programs, and advocacy activities. All services are free of charge. Call toll-free (866) 891-2392 www.sharecancersupport.org

1UpOnCancer This site states that it was started for a place to get good news. You can visit to learn about survivors and organizations doing incredible things, and to learn about promising research. It also has information about lifestyle choices to cut your chance for recurrence or to live well if you have metastasized. Visit for “Freebies for Cancer Patients” and other resources. And if you want a good laugh, click on the “Humor” link. It has information on cancer in general and specific information on cancers of the Blood, Breast, Cervical, Childhood, Colorectal, Lung, Melanoma, Ovarian, Prostate, and Uterine. <http://www.1uponcancer.com/>

PANCREAS CANCER

American Cancer Society - Pancreatic Cancer

The American Cancer Society is a nationwide network of community based, voluntary health organizations committed to the research and defeat of cancer. The pancreatic

cancer site includes statistics, signs and symptoms, diagnosing, staging, survival rates, risk factors, causes, treating, coping, insurance issues, research, clinical trials, and support programs. www.cancer.org

Lustgarten Foundation for Pancreatic Cancer

The Foundation works to increase funding and support of research into the biological mechanisms and clinical strategies related to the prevention, diagnosis, and treatment of pancreatic cancer; facilitate and enhance the dialogue among members of the medical and scientific communities about basic and clinical research efforts that relate to pancreatic cancer; and heighten public awareness of pancreatic cancer diagnosis, treatment, and prevention and provide informational support for pancreatic cancer patients, their families, and friends. www.lustgarten.org

National Cancer Institute - Pancreatic Cancer

The National Cancer Institute is part of the National Institute of Health, one of 11 agencies currently operating under the umbrella of the Department of Health and Human Services. In addition to research conducted in its own clinics and laboratories, the NCI supports and coordinates research projects through cancer centers, hospitals, and universities, while also being the primary federal entity responsible for disseminating information about cancer. This site includes general information on pancreatic cancer, stages, treatment, clinical trials, research, and more about pancreatic cancer which includes information on coping and support. www.cancer.gov

National Pancreatic Cancer Foundation

NPCF provides information about tests, treatments, survival rates, and has a financial assistance program for patients currently in treatment for pancreatic cancer. www.npcf.us

Pancreatic Cancer Action Network

The Pancreatic Cancer Action Network is the national organization creating hope in a comprehensive way through research, patient support, community outreach and government advocacy. The organization raises money for direct private funding of research and advocates for more aggressive federal research funding of medical breakthroughs in prevention, diagnosis and treatment of pancreatic cancer. The Pancreatic Cancer Action Network fills the void of information and options by giving patients and caregivers reliable, personalized information they need to make informed decisions, such as comprehensive information and resources about the disease, treatment options, clinical trials, diet and nutrition. www.pancan.org

PARANASAL SINUSES CANCER

American Cancer Society - Paranasal Sinuses Cancer

The American Cancer Society is a nationwide network of community based, voluntary health organizations committed to the research and defeat of cancer. The paranasal sinuses cancer site includes statistics, signs and symptoms, diagnosing, staging, survival rates, risk factors, causes, treating, coping, insurance issues, research, clinical trials, and support programs. <http://www.cancer.org/cancer/nasalcavityandparanasalsinuscancer/index>

Cancer.Net – Paranasal Sinuses Cancer

Cancer.Net provides timely, comprehensive, oncologist-approved information from the American Society of Clinical Oncology (ASCO), with support from the Conquer Cancer Foundation. This is Cancer.Net's Guide to paranasal sinuses cancer. You can use the menu to choose the Overview section or Statistics, Medical Illustrations, Risk Factors and Prevention, Symptoms and Signs, Diagnosis, Stages and Grades, Treatment Options, About Clinical Trials, Latest Research, Coping with Side Effects, After Treatment, Questions to Ask the Doctor, and Additional Resources. <http://www.cancer.net/cancer-types/nasal-cavity-and-paranasal-sinus-cancer>

National Cancer Institute – Paranasal Sinuses Cancer

The National Cancer Institute is part of the National Institute of Health, one of 11 agencies currently operating under the umbrella of the Department of Health and Human Services. In addition to research conducted in its own clinics and laboratories, the NCI supports and coordinates research projects through cancer centers, hospitals, and universities, while also being the primary federal entity responsible for disseminating information about cancer. This site includes general information on nasal cavity and paranasal sinus cancer, stages, treatment, and more about nasopharyngeal cancer which includes information on coping and support. <http://www.cancer.gov/cancertopics/pdq/treatment/paranasalsinus/Patient/page1>

Support for People with Oral and Head and Neck Cancer (SPOHNC)

Support for People with Oral and Head and Neck Cancer (SPOHNC) is a self-help nonprofit organization involved in the development of programs of support. It is dedicated to raising awareness and meeting the needs of oral and head and neck cancer patients through its resources and publications. Paranasal cancer falls within this group of cancers. It provides support through local chapters, a national survivor volunteer network which matches people by diagnosis and treatment, the publication of a newsletter and books, and resource links. <http://www.spohnc.org/index.php>

PENIS CANCER

American Cancer Society - Penile Cancer

The American Cancer Society is a nationwide network of community based, voluntary health organizations committed to the research and defeat of cancer. The penis cancer site includes statistics, signs and symptoms, diagnosing, staging, survival rates, risk factors, causes, treating, coping, insurance issues, research, clinical trials, and support programs. <http://www.cancer.org/cancer/penilecancer/index>

Cancer.Net - Penile Cancer

Cancer.Net provides timely, comprehensive, oncologist-approved information from the American Society of Clinical Oncology (ASCO), with support from the Conquer Cancer Foundation. This is Cancer.Net's Guide to Penile Cancer. You can use the menu to choose the Overview section or Statistics, Medical Illustrations, Risk Factors and Prevention, Symptoms and Signs, Diagnosis, Stages and Grades, Treatment Options, About Clinical Trials, Latest Research, Coping with Side Effects, After Treatment, Questions to Ask the Doctor, and Additional Resources. www.cancer.net

National Cancer Institute - Penile Cancer

The National Cancer Institute is part of the National Institute of Health, one of 11 agencies currently operating under the umbrella of the Department of Health and Human Services. In addition to research conducted in its own clinics and laboratories, the NCI supports and coordinates research projects through cancer centers, hospitals, and universities, while also being the primary federal entity responsible for disseminating information about cancer. This site has expert-reviewed information on penile cancer including sections on general information, stages, treatment options, risk factors, signs and symptoms, tests, factors affecting prognosis, coping, research, and a search tool for clinical trials. <http://www.cancer.gov/cancertopics/pdq/treatment/penile/Patient/page1>

The Urology Foundation - Cancer of the Penis (Penile Cancer)

The Urology Foundation provides information on the signs and symptoms of penis cancer, diagnosis and treatment options. <http://www.theurologyfoundation.org/what-is-urology/male-reproductive-organs/cancer-of-the-penis-penile-cancer/>

PHARYNX CANCER (See OROPHARYNX CANCER)

PROSTATE CANCER

American Cancer Society - Prostate Cancer

The American Cancer Society is a nationwide network of community based, voluntary health organizations committed to the research and defeat of cancer. The prostate cancer site includes statistics, signs and symptoms, diagnosing, staging, survival rates, risk factors, causes, treating, coping, insurance issues, research, clinical trials, and support programs. <http://www.cancer.org/cancer/prostatecancer/index>

Malecare

Malecare provides hundreds of pages of doctor, psychologist and social worker authored information. The organization is known for several unique programs addressing under-served and marginalized men, their husbands, wives, partners, family members and friends. These programs include: Advanced Prostate Cancer, Prostate Cancer Under 50, Twice as Many which is focused on men of African Descent, Facing Cancer Alone for men who live alone, and Gay Men and Prostate Cancer. <http://malecare.org/about/>

Prostate Cancer International

The Prostate Cancer InfoLink, which includes a section for the newly-diagnosed, has been developed to become a primary source of accurate, current, and topical information about prostate cancer for patients and their families. <http://prostatecancerinfolink.net/diagnosis/newly-diagnosed/>

Prostate Cancer Research Institute

The mission of the Institute is to help men know their options. The organization provides a Helpline, newsletter, blog, support group information, supports research and organizes conferences on prostate cancer. <http://pcri.org/>

1UpOnCancer This site states that it was started for a place to get good news. You can visit to learn about survivors and organizations doing incredible things, and to learn about promising research. It also has information about lifestyle choices to cut your chance for recurrence or to live well if you have metastasized. Visit for “Freebies for Cancer Patients” and other resources.
